

Parenting in the Digital World

Virtual Learning

*Delivered on Zoom
for your school community*

@7pm (timings can be flexible)

As our digital lives continue to grow, we know that for young people, spending an increasing amount of time online, holds potential risks and concerns.

To help parents/carers (and even staff) help their young people navigate themselves through their ever rapidly growing digital lives, we are offering schools special live parent and carer online safety sessions.

**During these 90min sessions, Richard from The Stay Safe Initiative CIC will help everyone to understand their young persons digital lives a bit more.
Exploring what they are doing online, highlighting risks and providing straight forward help and advice to keep everyone at home safe.**

Gaming - Social Media - Group Chats - and more..

Risks involved - Talking to your kids - Tools to help - When things go wrong

Be informed and NOT scared!

What people tell us!

hi Richard thank you so much for your talk. it was so informative and easy to listen too. I am an older parent and a bit of a technophobe so feel much more confident. cheers

Thank you for this session, it has been really helpful

Really informative. I thought I was fairly clued up on online safety but I've learnt loads. I feel pretty empowered now to gradually talk to my daughter about different topics. Thank you

Really helpful thank you, especially the advice on YouTube as my daughter regularly watches it and I'm always worried about the content she might accidentally see. Will definitely look at the filters I can apply so thank you!

it was extremely helpful for me. I knew that the digital world is a dangerous place for a child/ teenager. I had an idea of the risks but not the details of them and how to manage them. I'm feeling much more equipped to guide my daughter to enter this phase.

Massively helpful session Richard...thank you so much for sparing your time to help us parents negotiate this tricky journey! I'm leaving the session with some really great tips. Really grateful. Thanks a million.

Thank you. Very informative and I feel more confident now. Also a few things I hadn't thought about speaking to my child about which I now will.

Thank you, found this a really useful session and lots of helpful ideas for us to things about with our children. It's great you are working with the children tomorrow

Brilliant, thank you Richard, looking forward to the extra info setting up privacy's etc

Thank you Richard, I found it really useful and will be making some changes at home!

Thank you, Richard. What a helpful session. I know that the parents will really benefit from the materials you are sending them too.

Thanks, that was helpful. I think it's good to promote positive conversations with our children rather than just completely restrict access.

Thank you for your time. Very informative for the future of online life for my year 1 daughter. I will most definitely be working through all our parental restrictions. Thanks again. Becky

Thankyou. Very informative. My son is only in year 1 but a subject I feel you can never learn too early about.

Thank you Richard, that was really useful. Plenty of great ideas to take forward with our children.

Hi Richard - No question, but thank you for an informative presentation - I think the underlying message is to talk to our kids and keep things as open as possible. A really good use of our time. Thanks again.

**These sessions are delivered to your schools community at home
during the evening on ZOOM.**

**We provide schools with an invite letter containing
links to join and a poster to help promote this session.**

**Following all sessions, we provide schools with an extensive
resource pack containing lots of additional information
to share with their whole school community.**

Cost:

£150 live session

£195 live session + recorded video link
